2 Atts:				Attached are responses to reference memorandum. I don't believe there are any problems in connection with setting up the position requested by the Office of Communications. There are, however, two problems in connection with the two Medical Staff positions requested:
12.	Att 1 - Memo dtd 28 May 63 to DD/S fr D/CO, same subject			a) You will need to take a look at the GS-13 position in the light of upgrading it to fit the scientific pay schedule.
13.	Att 2 - Memo dtd 27 May 63 to DD/S fr C/MS, same subject			b) The two positions for the Medical Staff should not be established prior to approval of the two programs for which the positions are intended.
SPA-DD/S:JHP:sbo				Please include the two Medical Staff positions in your planning but do not finalize action until Dr. Tietjen or I have called you concerning program approval.

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Designation of Scientific Pay Schedule Position

1. This confirms information given to [] by telephone on 27 May.

25X1

2. It is recommended that the Office of Communications be assigned one (1) position for a scientist under the provisions of Headquarters Regulation [] and the for the Fiscal Year 1964. The position will be filled from outside the Agency. There follows supporting data required by memorandum from the Director of Personnel, subject as above, dated 15 May 1963:

a. It is desired to obtain the services of a physicist with a Masters or Doctors Degree to assist the engineers of the Office of Communications to keep abreast of the "state of the art" by continuing liaison with industry and academic institutions.

b. The incumbent filling this position should be required to frequently attend symposia, meetings of scientific societies and organizations such as the Institute of Radio Engineers, to visit industrial establishments such as Space Technology Laboratories, the General Electric Company and others.

c. See a and b above.

3. Same as above for Fiscal Year 1965.

4. The Office of Communications has a position of Special Assistant which was intended for the purpose outlined above. The position is a GS-15 and is vacant. It may be necessary to use the Scientific Pay Schedule now

STAT

MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Designation of Scientific Pay Schedule Positions

25X1 1. The recently published regulation on Management of Specially Qualified Scientific Personnel [] establishes a requirement for identifying those scientific positions which should be designated as Scientific Pay Schedule positions. The Scientific and Technical Personnel Advisory Committee discussed this requirement at its first meeting and agreed that the initial process of identifying these positions should be carried out on an Agency-wide basis so that appropriate recommendations for establishing dollar and numerical ceilings could be made promptly.

2. We would therefore like to have your recommendations as to positions in components under your jurisdiction which you believe should be included in the initial designation of such positions. Since the Scientific and Technical Personnel Advisory Committee is responsible for reviewing all positions proposed for such designation and advising the Comptroller concerning budgetary, ceiling, and pay aspects of such action, you may wish to have your representative on the Committee, [] take part in the development of your recommendations.

3. As you know, the recommendation that the Scientific Pay Schedule be approved indicated that it would be used sparingly at first in order to ensure an orderly implementation of this new system. Therefore, your recommendations should be geared to approved budgeted activities and programs and should list separately requirements for FY 1964 and FY 1965. You should also specify in each case whether the position will initially be filled from outside of the Agency or from within. Finally, your recommendations should include the following supporting data:

- a. Description of the nature of scientific or technical work to be performed;
- b. Statement of the accomplishment expected of the incumbent; and
- c. Explanation of the basis of the need for expert scientific qualifications.

4. I would appreciate receiving your recommendations by 31 May 1963 in order that we may proceed as quickly as possible with the initial designation of positions under the Scientific Pay Schedule. [] Chief, Salary and Wage Division, extension [] is available to provide any assistance which your staff may desire in connection with the implementation of this program.

[]
